

DASHBOARD WARNING LIGHTS

Dash Gas Tips

1. Don't let your tank get below 1/4 of a tank.
2. Don't exceed the speed limit.
3. Accelerate slowly.
4. Don't hard brake.

Whaaaaa?

The arrow next to the gas pump tells you which side of the car your tank is on. Pump. Pump it up.

COOLANT TEMPERATURE WARNING

What's it mean?

Indicates engine temperature has exceeded normal limits. Turn off the vehicle immediately and have it towed to TD.

TD What we do?

FREE inspection of your vehicles coolant system. This includes testing the coolant fluid for contaminants, visually inspect hoses, radiator, and reservoirs. We will provide you with a comprehensive inspection sheet with a courtesy estimate.

What's it mean?

RED Indicates one of three possible conditions: parking brake is on/engaged; problem with the braking system/brake fluid is low, or ABS failure. YELLOW indicates your braking components require service.

TD What we do?

Perform a FREE brake inspection. This includes measuring brake pad and rotor/drum thickness, testing brake fluid for contamination, and full braking system inspection. We will provide a comprehensive brake inspection sheet and courtesy estimate.

BRAKE SYSTEM

OIL PRESSURE WARNING

What's it mean?

Oil pressure has dropped below the factory recommended level. Turn off the vehicle immediately and have it towed to TD.

TD What we do?

Perform a FREE inspection of your vehicle. This includes visually inspect seals, gaskets, filter, and drain plugs for leaking. We will measure the oil level your vehicle, and top off as needed too!

What's it mean?

Indicates windshield washer fluid is low.

TD What we do?

Perform a FREE inspection of your washer fluid reservoir and hoses, then top off the washer fluid FREE.

WASHER FLUID REMINDER

LAMP OUT

What's it mean?

Indicates that there is an exterior light on the vehicle that is not functioning properly.

TD What we do?

Perform a FREE inspection of your vehicles exterior lights (headlights, fog lights, directional indicators, reverse lights, and brake lights). We will provide a comprehensive exterior light inspection sheet and a courtesy estimate.

What's it mean?

Indicates voltage level is below normal level and the vehicle's charging system may not be functioning properly.

TD What we do?

Perform a FREE inspection of your vehicle battery and electrical system. This includes a FREE battery test. We will provide you with a comprehensive inspection sheet and a courtesy estimate.

BATTERY/CHARGING ALERT

TPMS: TIRE PRESSURE MONITORING SYSTEM

What's it mean?

The tire pressure has dropped below recommended levels. If the TPMS light is flashing, the TPMS sensor may require replacement, or there could be a fault in the system.

TD What we do?

FREE pressure check and adjust the tire pressure for FREE using only Nitrogen inflation. Woot! If TPMS replacement is required we will provide a courtesy estimate on replacement.

Huh? The color actually means something!
